Market Share Analysis: Volume & Visibility

1.1 Share of Voice by Mention Volume

Out of **20,194 total mentions** captured across all digital channels during the 32-day analysis period, the distribution reveals a highly competitive but uneven playing field.

Brand	Mentions	Share of Voice	Position	Gap to Leader	MoM Trend
FTMO	7,149	35.4%	Market Leader	—	+8.8%
Topstep	5,001	24.8%	Strong #2	-2,148 (-30%)	+94.1%
fundednext	4,861	24.1%	Close #3	-2,288 (-32%)	+28.6%
E8 Markets	2,561	12.7%	4th – Mid-tier	-4,588 (-64%)	+141.9%
holaprime	334	1.7%	5th – Emerging	-6,815 (-95%)	+115.1%

Share of Voice by Mention Volume (%)

▲ Market Concentration

The top 3 players (FTMO, Topstep, fundednext) collectively command **84.3% of all online conversations**, leaving only 15.7% of the discussion space for emerging and mid-tier competitors. **holaprime is the fastest-growing brand** in this window.

■ Challenges

- High barrier to entry in brand awareness
- Established competitors have loyal communities
- Significant investment required to compete on volume

◆ Opportunities

- Topstep shows 26.1% negative sentiment — audience is up for grabs
- Fragmented 15.7% market share is contestable
- Quality-over-quantity approach differentiates holaprime

1.

2 Share of Voice by Reach & Amplification

While mention volume provides one dimension of market presence, reach metrics reveal the true amplification and audience impact of each brand's content. Total combined reach across all analysed prop firms reached **38,426,000 impressions** during the study period.

Brand	Total Reach	Reach SoV	Reach / Mention	Efficiency Rank	Reach Growth MoM
FTMO	15.9M	41.4%	2,225	3rd	+27.1%
Topstep	11.4M	29.7%	2,280	2nd	+193.1%
fundednext	9.4M	24.5%	1,934	4th	+18.6%
E8 Markets	1.4M	3.7%	562	5th	+140.4%
holaprime	0.9M	2.2%	2,583	1st	+1,143.8%

Reach Share of Voice (%)

★ Critical Discovery — The Reach Efficiency Advantage

Despite ranking last in absolute mention volume, **holaprime achieves the highest reach efficiency in the entire competitive set at 2,583 impressions per mention** — outperforming even market leader FTMO by 16.1%.

+16.5% more efficient than Topstep (2,583 vs 2,280)

+33.6% more efficient than fundednext (2,583 vs 1,934)

+359.6% more efficient than E8 Markets (2,583 vs 562)

+16.1% more efficient than FTMO (2,583 vs 2,225)

Section 2

Month-over-Month Growth Analysis

Tracking growth momentum across the 32-day period reveals a clear divergence: while established players show steady or moderate growth, holaprime and E8 Markets are the breakout stories. The two charts below separate mention volume growth from reach growth to give each metric appropriate scale.

Note: Reach Growth chart uses a logarithmic scale. holaprime's +1,143.8% reach growth would make all other bars invisible on a linear scale.

Growth Summary Table

Brand	Jan Mentions	Feb Mentions	Volume Growth	Jan Reach	Feb Reach	Reach Growth
FTMO	6,570	579	+8.8%	12.51M	3.39M	+27.1%
Topstep	2,576	2,425	+94.1%	3.89M	7.51M	+193.1%
fundednext	3,779	1,082	+28.6%	7.93M	1.47M	+18.6%
E8 Markets	1,058	1,503	+141.9%	0.60M	0.84M	+140.4%
holaprime	155	179	+115.1%	0.07M	0.79M	+1,143.8%

▲ Key Takeaway

holaprime's reach growth of +1,143.8% MoM is the standout metric of the analysis period. Combined with +115.1% volume growth, this represents asymmetric momentum — a clear signal of accelerating brand awareness heading into Q1 2026.

Section 3

Market Share Distribution Overview

The charts below visualize the competitive landscape from a proportional perspective — comparing each brand's slice of total mentions against its slice of total reach. The gap between holaprime's mention share (1.7%) and reach share (2.2%) highlights its above-average content amplification.

Brand	Mention Share	Reach Share	Reach vs Mention Gap	Interpretation
FTMO	35.4%	41.4%	+6.0pp	Above-avg amplification
Topstep	24.8%	29.7%	+4.9pp	Above-avg amplification
fundednext	24.1%	24.5%	+0.4pp	Average amplification
E8 Markets	12.7%	3.7%	−9.0pp	Below-avg amplification
holaprime	1.7%	2.2%	+0.5pp	Punching above weight ✓

Section 4

Key Insights & Strategic Implications

4.1

Market Concentration Risk

The top 3 players control **84.3% of conversations** — a high barrier to entry for brand awareness. However, this also means the fragmented 15.7% tail is highly contestable, and holaprime's superior content efficiency gives it a structural edge in capturing quality impressions at scale.

4.2

holaprime's Growth Trajectory

With **+115.1% MoM volume growth** and **+1,143.8% MoM reach growth**, holaprime is the fastest-growing brand in the competitive set on both dimensions. This asymmetric growth is a leading indicator of accelerating brand awareness heading into Q1 2026.

4.3**Quality-Over-Quantity Strategy**

holaprime's reach efficiency (**#1 at 2,583 impressions/mention**) indicates high-quality content placements in high-authority channels. Scaling content output while maintaining this quality standard will compound the reach advantage rapidly as volume increases.

4.4**Competitive Vulnerability Windows**

Topstep shows 26.1% negative sentiment in community discussions — a clear opportunity for holaprime to capture dissatisfied audiences. **E8 Markets' volume surge (+141.9% MoM)** signals an emerging near-term competitor that should be monitored closely.
