

Renouveau Capital - Complete Growth Strategy Proposal

Performance Marketing to Achieve €10M AUM

Client:

Renouveau Capital
Group

Prepared by:

Miltos George |
Growth-onomics

Date:

February 4, 2026

Goal:

€10M AUM from
HNWI & semi-
professional
investors

Executive Summary

Your Numbers (22 months track record):

Sharpe Ratio

7

Monthly Win Rate

95.45%

Maximum Drawdown

6.11%

Calmar Ratio

35

Additional Metrics:

- Worst Month: **-0.49%** (September 2025)
- CAGR: **214%** (2024)
- Profitable Months: **21/22**

90-Day Targets:

- 120-160 qualified leads
- 12-20 introduction calls
- €400K-700K new AUM

12-Month Projection:

- €2.5M-4M new AUM (25-40% of €10M goal)

Why Your Track Record Deserves Better Marketing

The opportunity: You have exceptional performance data that most funds take 5+ years to build. But investors searching for "systematic trading funds" are finding competitors with weaker track records but stronger digital presence.

The disconnect: Right now, HNWIs researching alternative investments don't know you exist. They're allocating capital to funds with Sharpe Ratios of 1.5-2 simply because those funds show up first in search results.

The solution: Build a trust-first digital acquisition engine that amplifies your transparency as a competitive advantage.

Our Approach: Transparency at Scale

Phase 1: Foundation (Weeks 1-4)

Build credibility infrastructure before scaling acquisition

1. Investment Thesis Content Hub

Create educational content that answers every investor question before they book a call.

Content pieces we'll create:

- "Why a 44.79% Win Rate Beats 80%+ Promises" - Blog post explaining your risk/reward approach
- "Sharpe 7, Calmar 35: What These Numbers Actually Mean" - Risk metrics explainer white paper
- "From 200%+ to 30-40%: Why We're Transparent About Future Expectations" - Trust-building transparency
- "Inside Our Intraday Systematic Approach" - Methodology breakdown
- "What €10K Gets You at Renouveau" - Clear investor expectations

Why this works: HNWIs consume 6-8 pieces of content before making allocation decisions. We give them that education journey.

2. LinkedIn Thought Leadership

Position your founder/PM as the voice of rational systematic investing.

Posting strategy:

- **Frequency:** 3x/week (Tuesday, Thursday, Sunday)
- **Themes:** Transparency wins, risk education, market commentary, investor education
- **Target:** 5,000+ followers in 90 days
- **Content training:** I'll teach your team the exact playbook that built my 16,700 followers

3. SEO for Bottom-Funnel Investors

Own the search results where sophisticated investors research.

Target keywords:

- "Systematic precious metals fund EU regulated"
- "Intraday trading fund low drawdown"
- "Alternative investment €10K minimum"
- "Sharpe ratio 7 investment fund"

Goal: 1,500+ monthly organic visitors (high-intent, research-stage)

LinkedIn Ad Campaigns (VISUAL MOCKUPS)

Campaign 1: "The Numbers Don't Lie"

Objective: Trust-building through transparency

Budget: €2,000/month

Target: Portfolio Managers, Investment Directors, Wealth Managers

LinkedIn Ad: Campaign 1

Headline: 22 months. 21 profitable. Sharpe: 7.

Body:

Most systematic funds show you backtests.

We show you 22 months of live performance:

- ✓ 95.45% monthly win rate
- ✓ Maximum drawdown: 6.11%
- ✓ Calmar Ratio: 35

What does a Sharpe Ratio of 7 actually mean?

Download our performance breakdown (audited).

CTA: Download Full Report

Expected Performance:

- CTR: 1.2-1.8%
- Cost per lead: €40-60
- Monthly leads: 35-50

Campaign 2: "Anti-Hype Positioning"

Objective: Differentiation from competitors

Budget: €1,500/month

Target: Sophisticated investors tired of unrealistic promises

LinkedIn Ad: Campaign 2

Headline: "We used to deliver 200%+ annual returns. Here's why we don't anymore."

Body:

Transparency moment:

Our first 22 months delivered 214% CAGR. That's exceptional. It's also not sustainable.

Here's what changed:

- → AUM growth (execution constraints)
- → Market regime shifts
- → Risk prioritization over returns

Our target going forward: 30-40% annually

Why are we telling you this?

Because sophisticated investors deserve honest expectations, not marketing hype.

Expected Performance:

- CTR: 2.0-2.5% (contrarian angle drives engagement)
- Cost per lead: €35-50
- Monthly leads: 30-43

Campaign 3: "Risk Management Focus"

Objective: Attract capital-preservation minded investors

Budget: €1,500/month

LinkedIn Ad: Campaign 3

Headline: "Your hedge fund had a -23% month. Ours? -0.49%."

Body:

Maximum drawdown in 22 months: 6.11%

Worst single month: -0.49% (Sep 2025)

How we protect capital:

- → Intraday systematic exits (no overnight risk)
- → Multi-layer risk controls (position sizing + volatility limits)
- → 2-3 hour average holding period (limits exposure)

95.45% monthly win rate isn't luck.

It's disciplined risk management.

Expected Performance:

- CTR: 1.5-2.0%
- Cost per lead: €45-65
- Monthly leads: 23-33

Google Search Ad Campaigns

Campaign 4: Bottom-Funnel Intent Capture

Budget: €2,000/month

Google Search Ad

Ad: Renouveau Core Portfolio | €10K Min Investment

URL: <https://renouveaucapital.com> > core-portfolio

Systematic precious metals strategy. 22-month track record. Sharpe Ratio: 7. Intraday execution with 6.11% max drawdown. FSC-regulated. Monthly redemptions. EU investors welcome.

Extensions:

- → View Performance Report
- → Investment Methodology
- → Regulatory Information
- → Schedule Introduction Call

Target Keywords:

- "invest in systematic trading" (€4-7 CPC)
- "precious metals hedge fund" (€5-8 CPC)
- "low drawdown trading fund" (€3-6 CPC)
- "alternative investment €10k minimum" (€4-6 CPC)
- "regulated trading fund europe" (€3-5 CPC)
- "best systematic trading funds" (€6-10 CPC)
- "gold trading fund performance" (€4-7 CPC)

Expected Performance:

- CTR: 8-12%
- Cost per click: €3-6
- Conversion rate: 12-18%
- Monthly leads: 15-25

Budget Allocation & Scaling Plan

Phase	Timeline	LinkedIn Ads	Google Search	Retargeting	Total/Month	Monthly Leads Target
Foundation	Month 1-2	€3,000	€1,500	€300	€4,800	60-90
Optimization	Month 3-4	€3,500	€2,000	€500	€6,000	100-140
Scale	Month 5-6	€4,000	€2,500	€700	€7,200	150-200

Investment & Service Agreement

Option 1: Full-Stack Growth (Recommended)

Monthly Retainer: €4,500

Ad Spend: €4,800-9,200/month (scales with performance)

Total Investment: €9,300-13,700/month all-in

What's Included:

- ✔ Strategy & execution across all channels (LinkedIn, Google, SEO, email, content)
- ✔ 12+ pieces of educational content (blogs, white papers, ad copy, email sequences)
- ✔ Campaign management & optimization (daily monitoring, weekly adjustments)
- ✔ LinkedIn training for your team (teach you the content playbook)
- ✔ Monthly strategy calls (60 min to review performance, adjust tactics)
- ✔ Weekly performance reports (dashboard with all KPIs)
- ✔ A/B testing & continuous optimization

-  Compliance review coordination (work with your legal team)

Duration: 6-month commitment

- Months 1-2: Build foundation
- Months 3-4: Optimize & scale
- Months 5-6: Full-scale execution

Why 6 months? Trust-building takes time with sophisticated investors. Month 1-2 are foundational. Real momentum starts Month 3-4. By Month 6, you have a repeatable, profitable acquisition system.

Option 2: Content + Organic Only

Monthly Retainer: €2,800

Ad Spend: €0

What's Included:

-  Content library (12+ pieces over 3 months)
-  SEO optimization for investor research queries
-  LinkedIn content strategy + training
-  Email nurture sequences (5-email series)
-  Monthly strategy calls (30 min)

Ready to start?

Schedule a 30-minute strategy call to discuss your goals and timeline.

Next Steps

1. **Introduction Call (30 minutes)** - Discuss your specific goals, timeline, regulatory constraints, team capacity
 2. **Strategy Refinement** - Audit current digital presence, competitor analysis, content gaps, technical SEO
 3. **Kickoff (Week 1)** - Sign contracts, connect ad accounts, create first ads, approve content calendar, install tracking
-

One Final Thought

You have a 22-month track record that most funds take 5+ years to build.

You have a **Sharpe Ratio of 7** (institutional investors dream about Sharpe >2).

You have transparent, **audited performance data** starting February.

The question isn't whether you're ready to scale AUM.

It's whether you're ready to compete for attention in a crowded market.

Right now, investors searching for systematic funds are finding competitors with weaker track records but stronger digital presence. They're allocating capital to funds with **Sharpe Ratios of 1.5-2**, simply because those funds show up first in search results and have content libraries that answer investor questions.

You have the better product.

Let's build the better pipeline.
